Attention: long-term care workers

You have a story to tell about working in long-term care.

You’ve been there for the difficult moments and for the happy ones.

You can make a difference for the long-term care sector in Ontario. Tell your MPP why you support four hours of minimum care for every patient, every day.

Meeting with your MPP is easier than you think. Unifor has tips and information on how to lobby your MPP. Your voice and your experience are important.

Talk to your local union about how to set up a meeting and find out more information at: unifor.org/6minchallenge
