

Unifor reaches a tentative agreement with Toronto Terminals Railway

Just shortly after noon Eastern Time today, Unifor National Council 4000 reached a new four-year tentative agreement for our Local 4003 membership at Toronto Terminals Railway (TTR). This agreement was reached on the last day of the federal conciliation/mediation process. We thank Federal Conciliator Buck Reed for his assistance in the bargaining process and working with the parties in reaching this tentative settlement.

Details of the tentative agreement will be forthcoming, and its acceptance will be determined by the TTR membership during a ratification meeting that will be held in Toronto next Thursday, July 14, 2016. The times and location for the meeting and vote will be released shortly.

The Unifor TTR membership provides track maintenance, flagging and signal services on the Union Station Rail Corridor (USRC) in Toronto. The USRC is used by VIA Rail, GO Transit and the new Union Pearson (UP) Express. TTR is a jointly owned subsidiary of both CN and CP Rail.

In Solidarity,

Your Unifor National Council 4000 Bargaining Committee

Barry Kennedy, President, Unifor Council 4000

Mark Robinson, Regional Representative, Unifor Council 4000

Nick Ricci, Vice Local Chairperson, Bargaining Committee Member

Bob Fitzgerald, National Representative, Unifor

Brian Stevens, National Rail Director, Unifor

Bob Orr, Assistant to the National Secretary-Treasurer, Unifor
